WORK EXPERIENCE

Junior Front End Developer, The Daily Wire

May 2024 - Present

- Developed a real-time election coverage site using React, TypeScript, and Tailwind CSS, collaborating with senior developers, analytics, product managers, and developers.
- Contributed to building the user interface for a CMS using React, Tailwind, and Axios, and assisted with backend development in Golang by creating API endpoints.
- Maintained and updated core website features, including event-specific homepages, to improve adaptability and engagement.

Coding Bootcamp Teaching Assistant, LearningFuze

Mar 2024 - May 2024

- Supported students in comprehending application solutions, emphasizing key technologies such as HTML, CSS, JavaScript, TypeScript, React, and PostgreSQL.
- Assisted students in debugging by leveraging research, documentation, and code reviews.
- Collaborated with instructors to enhance curriculum and improve student performance.

EDUCATION

Full Immersion Web Development Program, LearningFuze

August 2023 – January 2024

- Programmed 10-12 hours a day for 18 weeks (800+ hours) in a simulated Agile work environment.
- Collaborated in hackathons to develop applications and enhance pair programming skills.
- Assisted classmates with troubleshooting and debugging personal projects.

TECHNICAL SKILLS

- **Front End:** JavaScript, TypeScript, React, NextJS, HTML, CSS, Tailwind
- **Back End:** Node, Express, REST, JSON, JWT, Argon2, PostgreSQL, MongoDB, NoSQL, GoLang
- **Misc:** Git, GitHub, CoPilot, VSCode, Jira, Figma, Slack, Discord, AWS Elastic Beanstalk, Vercel

APPLICATIONS DEVELOPED

Personal Portfolio Website, Front End

March 2024

- Developed and deployed a personal website using React, TypeScript, Tailwind, and Vercel.
- Leveraged creative UI/UX design to showcase projects and skills, enhancing professional visibility.
- Applied responsive design principles for optimal user experience across all devices.

Spin Trade Marketplace, Full Stack

December 2023

- Built a full stack web app using React, TypeScript, Tailwind, Nodejs, Express, PostgreSQL and AWS.
- Engineered and implemented the application from concept to deployment on AWS Elastic Beanstalk.
- Implemented role-based authorization to manage user access and permissions.
